Weight/Price Ratio

Torq-Lite II - 220 grams w/\$249.99 MSRP ratio= 88%

The Torq-Lite II brakeset gives the best bang for your buck. It produces every bit of power top three competitors offer, no flex, and it's approximately 45+ grams lighter than its expensive competitors. It is the ultim8 brakeset!

Sram Red - 265 grams w/\$355.00 MSRP ratio= 75%

Campy S Record - 272 grams w/\$399.99 MSRP ratio= 68%

Dura Ace 7900 - 294 grams w/\$439.99 MSRP ratio= 66%

Why The Torq-Lite II?

There are lots of choices in performance road caliper sets, but have a 200g weight at \$250.00 retail. The Torq Lite II brake set separates itself from the competition with a fully CNC machine finish, adjustable angle pad design, SWISSTOP performance pad inserts, and the Rocker Arm pivot. The Rocker arm pivot design offers increased braking power for those guys who spend a lot of time in the mountains. Everyone knows you don't have to sacrifice braking power to achieve lightweight. This brake set compromises nothing, including your budget!
