Why Origin-8?

Created with the finest carbon to be visually stunning, stiff and lightweight, the Lactic Acid provides a high quality frameset at an affordable price. The full carbon monocoque construction makes the design perfect for race or performance. The Lactic Acid's rigidity is maintained in the head tube and drive train with no sacrifice to overall comfort. Included is a 1 1/8 inch integrated carbon threadless fork with integrated headset and a replaceable derailleur hanger. Quite simply, it is a luxury ride at a value price.
