

Pannier Bag

Instruction Manual

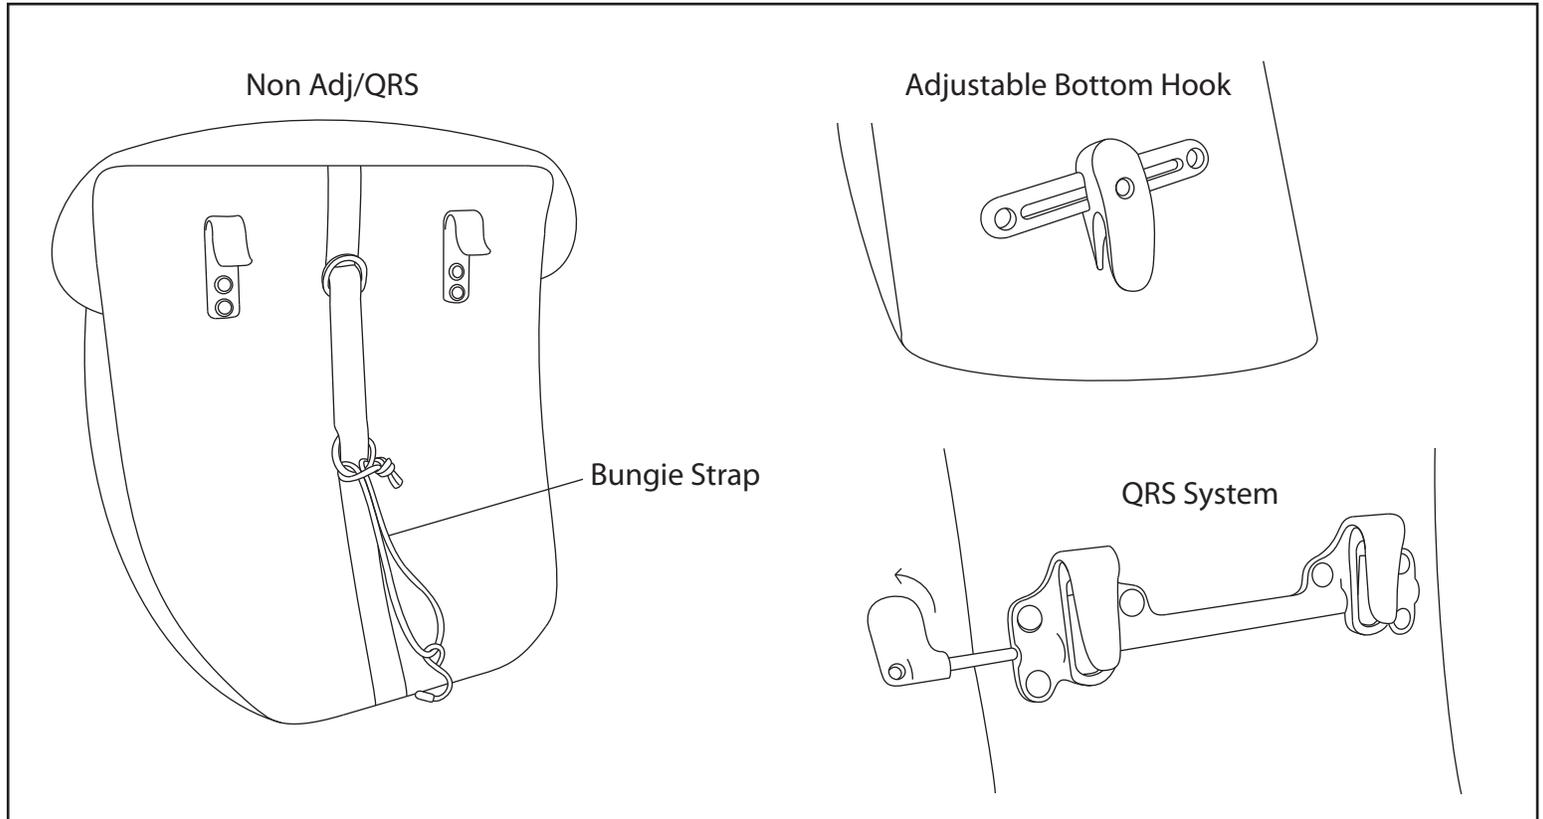

BA008

Please read all instructions before installing and using your pannier bag.

Warning

A rear rack is necessary to mount this type of bag.

Be sure bag is secure before riding the bicycle.

Installation/Use

Non Adjustable Pannier

1. Slide the two hooks over the frame of your bike rack.
2. Press bag down firmly to secure.
3. Wrap bungee around the frame of the rack to prevent swaying and possible ejection of bag while riding.

Adjustable Pannier

1. Slide the two hooks over the frame of your bike rack.
2. Press bag down firmly to secure.
3. Adjust bottom hook to fit snugly over one of the cross members of your rack and tighten it down using an allen wrench. The bottom hook will prevent swaying and possible ejection of bag while riding.

Quick Release Pannier (QRS)

1. Slide the two hooks over the frame of your bike rack.
2. Press bag down firmly to secure.
3. Adjust bottom hook to fit snugly over one of the cross members of your rack and tighten it down using an allen wrench. The bottom hook will prevent swaying and possible ejection of bag while riding.
4. Twist the QRS knob to release the bag and lift to remove from the rack.

*Some models come in pairs and lay over the top of the racks and strap against the side of the racks.
