

DuoTrigger Convertible Levers

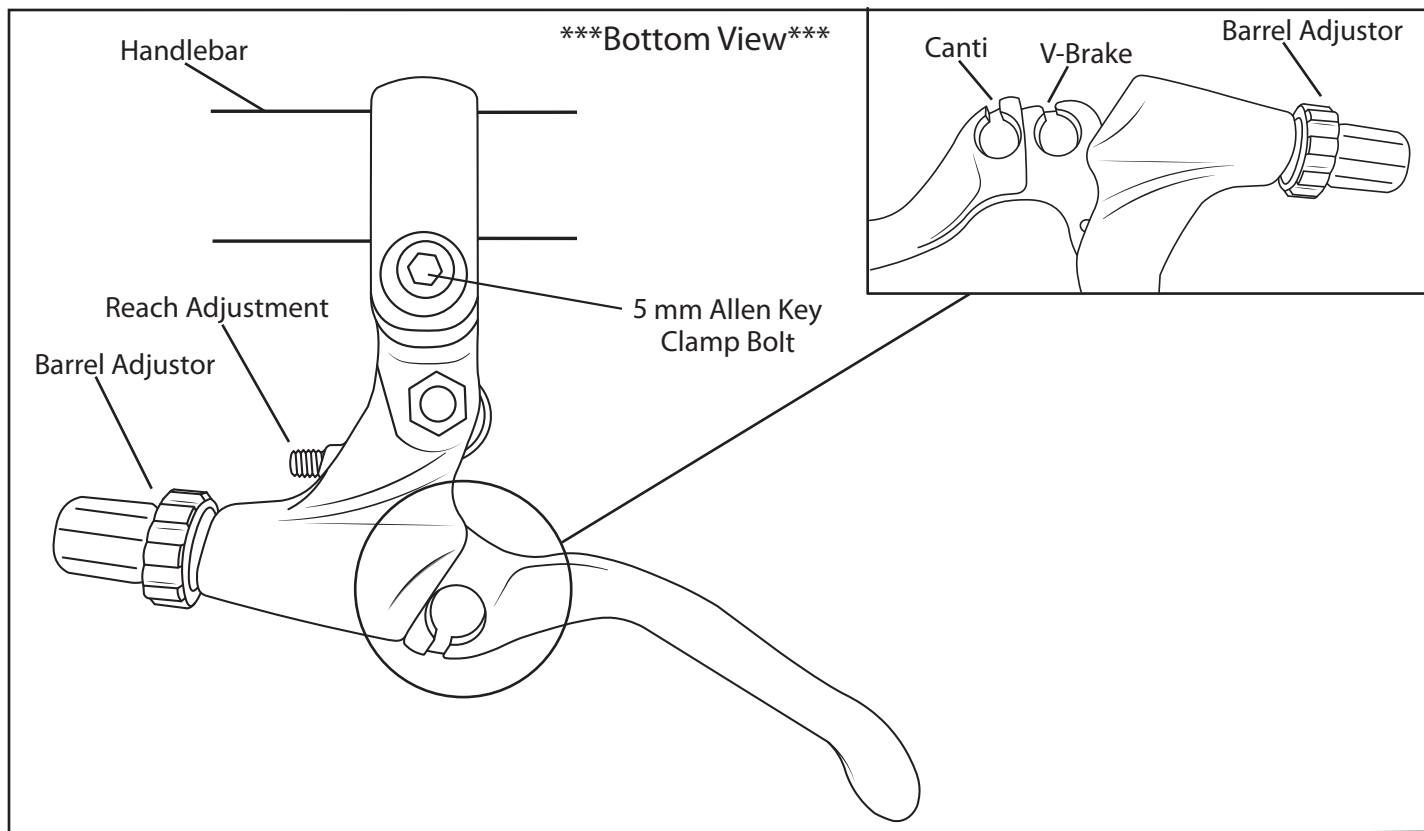

Instruction Manual

BL002

Please read all instructions before installing your new brake levers.

Warning

Failure to install brake levers properly may result in damage to your bicycle, serious injury, and/or death.

Installation/Use

1. Remove the grips from handlebar.
2. Using a 5mm allen key, loosen the bolt in the brake lever clamp.
3. Slide brake lever in place on handlebar.
4. Tighten the brake lever clamp bolt between 5 - 7 Nm.
5. Slide the grip back onto the handlebar.

Cable Adjustment

1. To adjust the cable pull, pull the lever blade as if braking to expose both barrel wells.
2. Choose the appropriate barrel well per type of brakes, the hole nearest the barrel adjuster is for V-Brake and mechanical disc applications while the further is for cantilever or U-Brakes.
3. Install cable per manufacturer's specifications and check for proper routing and adjustments before use.
